Re: Tipping Rates

Please review the following Rates and Fees as of **July 1, 2015**. If your project needs Special Handling or you have any questions, please get in touch with us. We thank you for your business and look forward to serving the trashy side of your business for the coming year.

		Cost or Fee
CONSULTATION		NO CHARGE
ENVIRONMENTAL FEE PER LOAD		\$ 3.00 per load
NON-RECOVERABLE DRY WASTE	NW	\$92.00 per ton
RECOVERABLE DRY WASTE - MIXED	RW	\$92.00 per ton
CLEAN DIMENSIONAL WOOD	WW	\$65.00 per ton
WOODEN SPOOLS	SP	\$NA
CLEAN BRUSH / YARD DEBRIS	YW	\$92.00 per ton
STUMPS	ST	\$30.00 each + tonnage
LARGE DEMOLITION PROJECTS		negotiated
SHAKE/SHINGLE TEAR-OFF w/tar paper, etc.	NW	\$92.00 per ton
COMPOSITION ROOFING (asphalt shingle NO shake)	MC	\$75.00 per ton
LEED WASTE	LW	\$92.00 per ton
CLEAN CRAB (concrete, rock, asphalt, brick)	CC	\$27.50 per ton

We have expanded our product line offerings and now include CLEAN CONCRETE, ROCK and BRICK. The following page has descriptions of the different categories we accept. If you don't see your material or what you want to recycle, call us and we will help you find the appropriate method and place to recover your material.

DRY WASTE: At least **15%** recoverable with a maximum of 1.5% food waste up to 150 pounds. *To be accepted at this facility, ALL C&D loads must have an Asbestos Survey from a certified lab showing NAD or <1%. Documentation must be received prior to tipping these loads*

NON-RECOVERABLE DRY WASTE: Less than **15%** recoverable materials. **ALL FLAT ROOFING IS NON-RECOVERABLE AND MUST BE ACCOMPANIED BY A LAB ANALYSIS SHOWING LESS THAN 1% ASBESTOS. NO EXCEPTIONS.**

LEED WASTE: At least **50%** recoverable. Monthly Facility Reports will be issued for haulers, contractors and developers. The sort and report follows the portion of current LEED rules which require all recycled components be physically observed and weighed. It does not meet the LEED requirement for the local jurisdiction to certify the weights, as METRO does not certify LEED reports.

CLEAN CRAB (concrete, rock asphalt, brick): Yes, you might find a cheaper place to dump this, however if you have a small amount, transportation costs might equal out for you. This is a great service when you have small amounts of "Heavies" and you are close to our Yard.

WOOD AND YARD DEBRIS: Construction lumber, pallets, clean dimensional lumber, plywood, OSB, particle board. Land clearing that is mostly woody is acceptable, Yard Debris will be accepted as NW only. **No painted, treated or creosote lumber allowed.** Maximum nail or bolt size 1/2" with a minimum of nails and bolts. Hinges and light joist hanger hardware are allowed.

LARGE DEMOLITION PROJECTS: Building demolitions and Interior TI demolitions consisting of 5,000 s.f. or more will be negotiated on a project by project basis dependent upon recycle content, timing, size of job, and other factors. These projects must be pre-scheduled in order to negotiate the price and to keep our facility running smoothly.

COMPOSITION ROOFING: Composition roofing with felt paper and nails, flashing, plywood scraps, gutters, shingle sacks, etc. Loads with modest amounts of these items intermixed will be accepted.

NO FLAT ROOFING (TORCH DOWN, ROLL, HOT MOP, BUILT-UP, EPDM, etc) is allowed in these loads. Flat Roof with an Asbestos Survey is accepted as Non-Recoverable Dry Waste Only.

SHAKE TEAR-OFF: Loads of Shake Tear-Off that include roofing felt, old asphalt shingles, etc, will be taken in as Non- Recoverable Dry Waste. NO EXCEPTIONS.

Sincerely,
